

GIVE YOUR CHILD A HEAD START

Children's Institute's Early Childhood Education programs offer home-based and center-based early learning opportunities to hundreds of kids who are **happy, healthy** and **safe** in the hands of CII's highly qualified and caring staff. Experts—including educators, economists and brain scientists—agree that the foundation for future success is built between pregnancy and 5 years old, before many children enter kindergarten. An investment in our children is an investment in the future of Los Angeles.

CII's Head Start & Early Head Start programs offer families a community of support, including:

High-quality Early Education

Counseling Referrals for Families

Connection to Medical Providers

Daily Nutritious Meals

CII Teachers and Preschoolers at Gonzaque Village

HOME-BASED SERVICES

Get safe, reliable prenatal support right in your home.

CII's team of high-qualified and compassionate home-visitors are ready to support you both during your pregnancy and after your child is born. Services include: prenatal education; support groups for mom and baby; and access to resources like diapers, cribs and car seats.

childrensinstitute.org/prenatal

CII is here to support your growing family with a range of services from prenatal to preschool and beyond.

Create stability for your child by enrolling them in our Early Head Start and Head Start programs.

WHO WE ARE

Every year, Children's Institute (CI) supports 30,000 children and families across Los Angeles in achieving emotional well-being and educational success, which build pathways to economic mobility and lifelong health. We work in communities impacted by decades of underinvestment and racist policies— Echo Park, Watts, Compton and Long Beach.

WHAT WE DO

Behavioral Health & Wellness

As a leader in trauma-informed care, Children's Institute provides counseling services to children, adolescents, transition-aged youth and parents.

Early Childhood Education

Our early education programs engage children from birth to 5 years old in learning experiences that foster emotional well-being, language and literacy and healthy development.

Strengthening Families

Serving children and families involved in the child welfare and juvenile justice systems, these programs promote protective factors and empower families to establish a stable environment.

Community Innovations

Working with parents, schools and other community organizations in South LA, these programs raise awareness about trauma and its impact on children.

Community Schools

Children's Institute partners with a select group of schools and preschools offering comprehensive campus-wide trauma-informed services and supports for all students and parents.

Project Fatherhood

Providing comprehensive parenting skills to men in care-giving roles, this program uses an innovative support group model where dads learn to be more loving, responsible parents.

CI's Watts Campus at 10200 Success Ave.

OUR IMPACT

30,000

Children and family members served annually

38

Locations in Los Angeles

89%

of families improve nurturing and attachment with their child within three months of receiving CI's **Family Strengthening** services
